"Getting Things Done In Illinois"

State of Illinois
Department of Human Services
Division of Community Health and Prevention

General Information

AmeriCorps is a national service program that involves people in "getting things done" in communities. AmeriCorps Members develop an ethic of service while strengthening local communities. Illinois has 21 AmeriCorps*State programs in operation in the 2007-2008 program year and more than 700 Members committing to a year of service. The charge of individual AmeriCorps programs are determined by the local needs of communities with many focusing on education, human service and support needs, environmental quality, public health, or public safety.

AmeriCorps*State programs are administered by the Serve Illinois Commission on Volunteerism and Community Service. The mission of the Commission is: *"To improve Illinois communities by supporting and enhancing volunteerism and community service."* The Commission strives to realize its mission through the engagement of communities, schools, businesses, governmental entities, and faith- and community-based organizations in the implementation of volunteerism, national service, and community service goals. As a Governor-appointed commission of the State of Illinois housed within the Illinois Department of Human Services, the staff and commissioners of the Commission seek to maintain a high level of statewide engagement, promotion, and successful completion of the volunteerism and community service priorities identified and approved annually by the Commission.

Jumpstart for Young Children Jumpstart Illinois

Program Description:

Jumpstart is working towards the day that every child in America enters school prepared to succeed. We are making measurable strides towards this goal by pairing civically-minded college students with underserved preschoolers in year-long learning partnerships. For two hours, twice each week Jumpstart AmeriCorps members work one-on-one with their partner children, using interactive reading techniques as a foundation to build the language and literacy skills these children will need to fully benefit from the first years of school.

Illinois AmeriCorps*State Programs

Sauk Valley Community College AmeriCorps Benefits the Community (ABC)

Program Description:

The mission of ABC AmeriCorps is to work with children, youth, and families in education programs and community-based agencies to increase academic and life skills. The Program has a three-prong effort to increase the quality of life in northwest Illinois: 1) service in the schools and agencies, 2) community service projects, and 3) an awareness of the needs of the community to encourage the members to be life-long volunteers as alumni of ABC AmeriCorps. AmeriCorps members tutor teacher-identified students to increase the skills needed for academic improvement. The sites for this tutoring are public and parochial schools, and after-school programs. AmeriCorps members serve in community-based agencies to provide the opportunity for expansion of services. They recruit and train volunteers for community service activities. Through a partnership with the American Red Cross, members can become trained to be disaster volunteers. AmeriCorps members will increase their belief over the term of service that they can participate in and improve civic life.
